

Correction: *Log-transformation and its implications for data analysis*

Feng C, Wang H, Lu N, *et al*. Log-transformation and its implications for data analysis. *Shanghai Arch Psychiatry* 2014,26:105–109.

There is a typo in Feng *et al* [1]. In the 3rd paragraph on p.106, the expression for x_i should be

$$x_i = 100[\exp(u_i)-1] + 1, \text{ where } u_i \text{ is uniformly distributed between 0 and 1.}$$
